“Not enough subject expertise, but professional”

### Freelancer Response:

“Steph..aside from the superb turn around time on the article - which was fantastic, we're looking for a business slant - not a healthy news/info piece.” I changed the article per his request, which he didn't approve of, yet offered to pay for another rewrite. After that rewrite, he requested yet another one. I offered him a refund since I wasn't able to match his style, but he released funds anyway allowing him to leave his feedback.”

### Freelancer Feedback Comments for Client:

“Not very clear on instruction. Expects rewrite, after rewrite, after rewrite. Not happy with any end product you produce, no matter how many times changes are made.”
