Special Situations Report

More than a Dozen Companies in North America's Hottest Industry Rocketed by 100% or More Earlier This Year.

Shares of Legal Marijuana Stocks Have Gone *Through the Roof*: Is CANA Next to Soar?

INSIDE: Some Companies Shot Up 290%... 342%... 642%... 867%... 1,172%... Even 1,400% in Just a Matter of Days -- Could Cannabis-Rx, Inc. (OTCBB: CANA) Be the Next Stock to Move?

By Mike Casson
 Publisher & Executive Editor
MicroCap MarketPlace

It's the *fastest-moving* industry in North America today.

This industry is – at this moment – on the leading edge of the **single largest investing megatrend** to come along in nearly a century.

As with each megatrend – from the automobile to the personal computer...from the end of prohibition to the fortunes made in China – early investors in this megatrend stand to make life-altering amounts of money.

Companies in this new, breakthrough industry are seeing their share price explode time and time again...helping individual investors cash in on fast-moving gains.

It's the legal marijuana market.

The industry as a whole is worth an estimated \$100 billion globally^{[1][2]} – and legal sales of marijuana are growing at a rate faster than the highly-publicized smartphone market!^{[3][4]}

One industry trade journal says legal sales of marijuana could potentially quadruple by 2018.^[5]

Even if you haven't already invested in this industry – or recognized this megatrend at all – it's still not too late for you to stake your claim.

I've just discovered a relatively unknown company in this red-hot industry that could provide you with an opportunity for fast-moving, explosive profits.

The company is **Cannabis-Rx, Inc. (OTCBB: CANA)** – and I'll tell you what I like about its potential in just a moment.

But first...let me explain how this megatrend is unfolding right now.

World-Changing Megatrends Create Opportunities for Life-Altering Profits

Major turning points in history not only bring enormous change...they also present opportunities to make life-changing fortunes.

The **birth of the automobile** was the 20th century's first life-changing megatrend...a development that had an impact on the life of virtually everyone on the planet.

Investors who put their money in the very best automobile companies on the leading edge of this trend – General Motors, Ford, etc. – **were able to make a fortune** as the trend became unstoppable.

At the end of the 20th century – in the 1990s – huge profits were made investing ahead of the tremendous **boom in personal computers**. Intel and Microsoft provided early investors with gains of 3,500% and 9,000% between 1990 and 1999.

In fact, if you'd invested \$10,000 in Microsoft and \$10,000 in Intel back in 1990, your investments

\$10,000 in intel back in 1990 your investments would have been worth a combined \$1.25 million by the end of the decade!

Fast-forward to the 2000s...and the megatrend was **investing in China**. Three companies – again, the best of the best – were out in front of this megatrend and delivered enormous returns.

As China lifted itself into the 21st century, a few companies were able to take advantage of the trillions of dollars that flowed into the Chinese economy.

Shares of China Mobile soared 900%...Petro China shot up 1,100%...and China Unicom rocketed 350% -- helping investors rake in tens of thousands of dollars in profits.

All for simply being in front of the next investing megatrend.

And that brings me to 2014 – and the next investing megatrend poised to help early investors tap into the potential for life-altering returns: **the legalization of marijuana**.

How a Historic Shift in Thinking Could Send Shares of Cannabis-Rx, Inc. (OTCBB: CANA) Soaring Higher!

No question about it — the legal marijuana industry is the fastest-moving industry in all of North America today.

But this isn't the first time a change in attitudes – and the law – toward a substance has sparked such revolutionary industry growth.

On December 5, 1933 the Twenty-first Amendment was ratified...putting an end to the prohibition of alcohol in the United States.

The end of prohibition was the trigger that launched the second huge megatrend of the 20th century...and in the process launched the enormous, \$180 billion worldwide alcohol market that exists today.

Anheuser-Busch:
\$39,758,000,000
 annual revenue

SABMiller:
\$34,021,000,000
 annual revenue

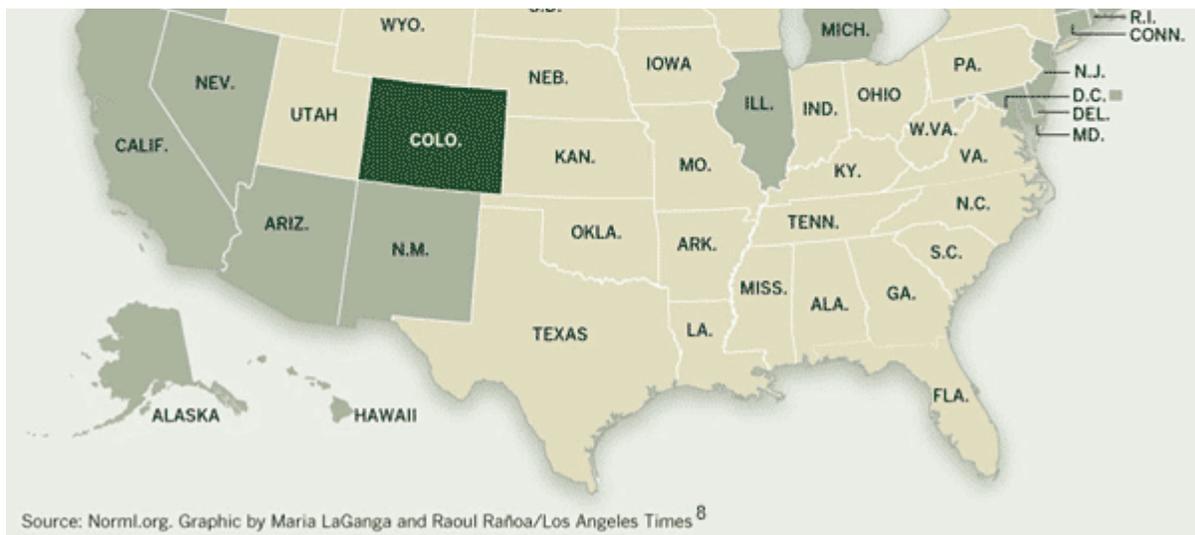

Heineken:
\$24,462,800,000
 annual revenue

Right now — in the legal marijuana market — we’re at precisely the same point as just before the end of alcohol’s prohibition.

In other words...we’re at a “tipping point” where there’s no reversing the momentum that has built toward legalization.

20 states now allow legal medical marijuana – and recreational cannabis is fully legalized in Washington and Colorado – and advocates hope to legalize recreational use in another 14 states by 2017.^[7]

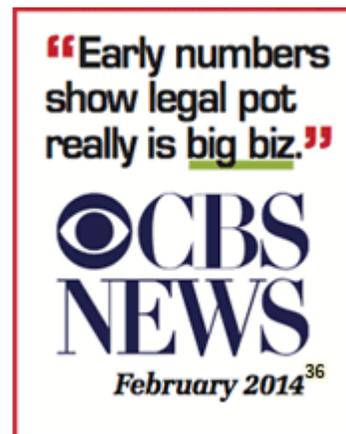

The end of prohibition helped launch the \$180 billion worldwide alcohol market. **But how big – and how fast – will the market for marijuana grow?**

Worldwide marijuana market estimates are right now over \$100 billion[9], or two-thirds the size of the worldwide alcohol market... **which means that as more states move toward legalization there's plenty of room for massive growth in this already-turbocharged industry.**

The legal marijuana market — at this moment — is in the early stages of a historic trend.

Investors are excited to be on the brink of a historical stock market event...one that has already produced triple-digit stock market returns for investors in more than a dozen legal marijuana companies.

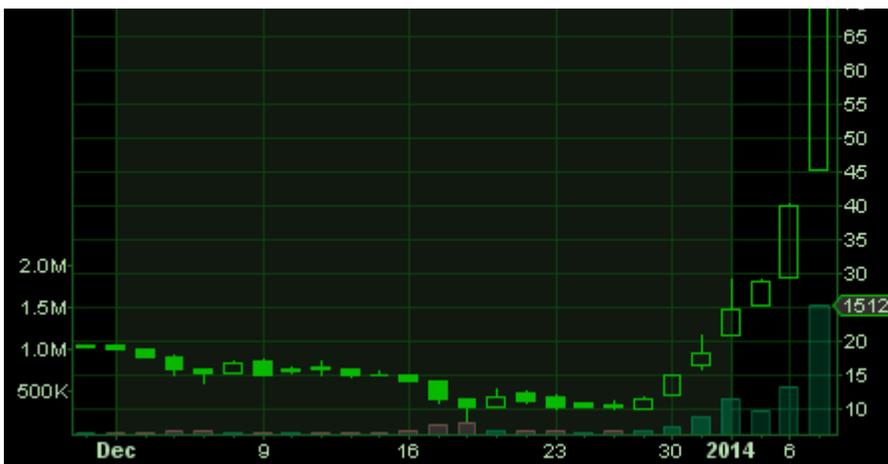

Cannabis-Rx, Inc. (OTCBB: CANA) is – right now – my favorite stock in this rapidly-growing industry. The potential for explosive growth exists for those investors who act quickly to become part of this legal marijuana “revolution.”

How Much Money Can Be Made by Investing in Legal Marijuana Stocks?

To show you just how explosive the growth been in this industry...let me show you what recently happened to shares of one company:

MDBX Medbox, Inc. OTC Mkt.	© StockCharts.com		
7-Jan-2014	Last 73.90	Volume 1.5M	Chg +33.95 (+84.98%) ▲
MDBX (Daily) 73.90 (7 Jan)			73.90
Volume 1,512,068			70

MDBX
Up Over +700%!

That's what happened to Medbox, Inc. earlier this year. In less than two weeks' time, shares of this marijuana stock soared seven-fold. A simple \$5,000 investment would have turned into a whopping \$36,190.^[10]

Not bad for just two weeks' time, right?

But that's what can happen when you're on the leading edge of a global megatrend. And remember – this chart only represents short-term gains in an industry that's still in its infancy!

Take a look at what happened to another company -- GreenGro Technologies, Inc.

GRNH
Up Over +1,500%!

Shares of this legal marijuana stock **soared an astounding 15 times** in just a little more than one month earlier this year.

If you'd have invested \$5,000 in this marijuana stock on December 31, your investment would have grown to \$75,000 by February 4.^[11]

growth to \$75,000 by February 4.

You could have turned \$1,000 into \$15,000...\$5,000 into \$75,000...or \$10,000 into \$150,000 – all in just over 30 days.

All thanks to the single hottest industry in North America today: legal marijuana.

Here's another quick example – take a look at this chart:

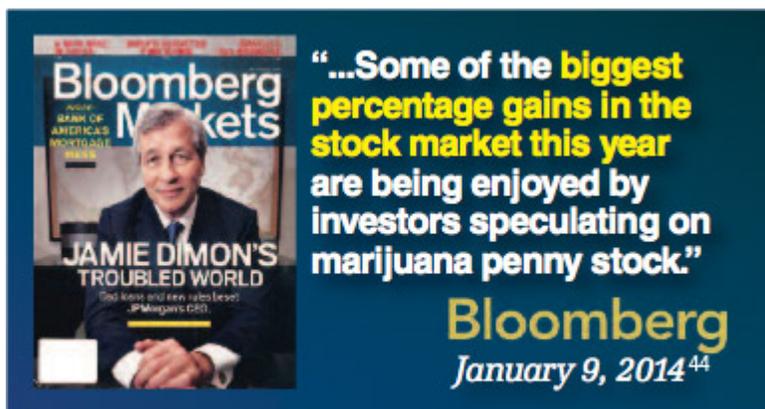

CANN
Up Over
+1,300%!

Back in early December, you could have purchased shares of Advanced Cannabis Solutions, Inc. for as little as \$1.81 per share. Less than six weeks later, those very same shares were trading for \$23.03.^[12]

That's nearly 13 times greater – in a month-and-a-half.

A modest \$5,000 investment in this stock back on December 4 would have turned into \$63,618 by the middle of January.

So you can see why I'm so excited about the explosive profit potential of this industry...and for the stock – **Cannabis-Rx, Inc. (OTCBB: CANA)** – I'm writing you about today.

But these are just three examples. The simple truth is...the legalization of marijuana is

shaping up to be the defining megatrend of the early 21st century.

And right now – at this moment – this trend is hitting North America with the force of a *tidal wave*.

Now...I won't ask you to look at any more stock charts.

But just to show you how all-encompassing this trend has been over the past several months, here's a quick list of stocks either in or related to the legal marijuana industry that have gone through the roof in a short period of time over the past few months:

Shares of Legal Marijuana Stocks Have Gone *Through the Roof!*

- Growlife, Inc. (PHOT) **soared 290%** in less than two months^[13]
- AVT, Inc. (AVTC) **shot up 342%** in just over two weeks^[14]
- Hemp, Inc. (HEMP) **climbed 900%** in just one month from January 6 to February 5^[15]
- Cannabis Science, Inc. (CBIS) **rocketed 867%** in just over five weeks^[16]
- Medbox, Inc. (MDBX) **soared 624%** in under two weeks^[17]
- Terra Tech Corp. (TRTC) **shot up 500%** in less than six weeks^[18]
- Vape Holdings, Inc. (VAPE) **climbed 280%** in less than one month^[19]
- FusionPharm, Inc. (FSPM) **soared from \$0.23 to \$7.38** in under two months^[20]
- CannaVEST Corp. (CANV) **rocketed 434%** in just over five weeks^[21]
- GreenGro Technologies, Inc. (GRNH) **soared 1,400%** in under five weeks^[22]
- Nuvilex, Inc. (NVLX) **climbed 130%** in less than two months^[23]
- mCig, Inc. (MCIG) **shot up 344%** in five weeks^[24]
- Advanced Cannabis Solutions, Inc. (CANN) **rocketed 1,172%** in under six weeks^[25]
- GW Pharmaceuticals (GWPRF) **soared 115%** in just two months' time^[26]

**"Economists Predict Marijuana
Legalization Will Produce
'Public-Health Benefits'"**

Forbes
November 2013⁴³

Investors who have been on the leading edge of this megatrend have — as you've seen — had many opportunities to pocket fast-moving, triple-digit gains.

How One Week Can Change Everything for a Legal Marijuana Stock

But, again – this is a movie we've seen before.

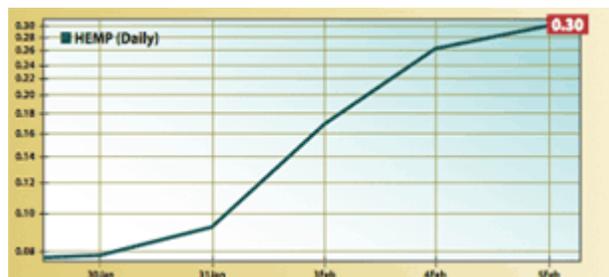

With each dominant global megatrend – from the automobile to personal computers – investors who found the right companies early in the trend were able to collect life-altering profits.

It's amazing just how quickly a stock can

explode higher as part of a fast-moving industry like legal marijuana.

Case in point: take a look at what happened to shares of Hemp, Inc. earlier this year – from January 30 through February 5:

After a modest rise in price on January 31, shares of Hemp, Inc. quickly began to soar.

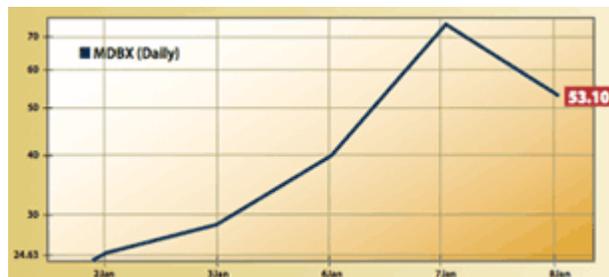

By Monday, February 3 the share price had nearly doubled...and then – just 48 hours later – by Wednesday, February 5 the share price **had doubled again**.

A modest \$5,000 investment in shares of Hemp, Inc. on January 30 would have been worth \$18,750 at the end of the day on February 5.[46]

Investors could have more than tripled their money in a matter of just five trading days!

The same thing happened one month earlier with shares of Medbox, Inc.

Shares of Medbox rose from a split-adjusted price of \$10.49 on January 2 to a peak of \$46.75 in a matter of five trading sessions.

That's a 346% surge in share price – in just one week's time!

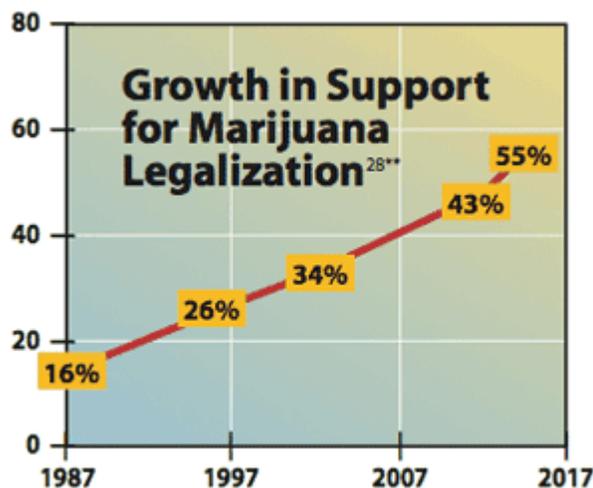

It's that type of fast-moving spike that makes the legal marijuana industry the hottest in all of North America. Begin your due diligence now into Cannabis-Rx, Inc. (OTCBB: CANA) before the next triple-digit spike across this industry!

To be sure, I don't know how quickly — or how high — shares of **Cannabis-Rx, Inc. (OTCBB: CANA)** could soar in the weeks ahead. After all, nothing is guaranteed when it comes to stocks.

But as you can see, the potential for an explosion in share price is very real for the stocks in this fast-moving industry.

Right now is your chance to grab a piece of this red-hot industry while this megatrend is still in its early stages – when the juiciest profits are still there for the taking.

Legalized Marijuana is Enjoying a Surge in Support...Creating an Opportunity for Massive Growth in this Red-Hot Industry

Virtually everywhere you turn – from economists to politicians...from ordinary citizens to medical professionals...even the President of the United States – the tide is clearly turning toward legalization of marijuana.

According to a CNN poll conducted earlier this year, the majority of Americans **now support legalizing marijuana**.^[27]

Recently, more than 300 economists – including three Nobel Laureates – signed a petition encouraging the President, Congress, governors and lawmakers to consider marijuana legalization in the United States.^[29]

No less an authority than noted neurosurgeon –

and one-time candidate for U.S. Surgeon General – Dr. Sanjay Gupta recently created headlines by announcing that he now supports medical marijuana...and apologizing for his previous stance on the topic.^[30]

“We have been terribly and systematically misled for nearly 70 years in the United States, and I apologize for my own role in that,” said Dr. Gupta.^[31]

CBS NEWS “Sanjay Gupta backs medical marijuana, apologizes for previous views” – CBS News, August 2013³⁸

the Atlantic “Obama on Pot Legalization: ‘It’s Important for It to Go Forward’” – *The Atlantic*, January 2014³⁷

npr “That President Obama could openly speculate about marijuana being less dangerous than alcohol — and embrace the state-level legalization of the drug — is a measure of just how far the nation has moved since the 1980s.” – National Public Radio, January 2014³⁹

Even the President of the United States has gone on record with a limited endorsement of legalization, saying that it was important for the legalization in Washington and Colorado to move forward.

President Obama said that he viewed marijuana as, *“not very different from the cigarettes I smoked as a young person.”*^[32]

The President went on to say of marijuana: *“I don’t think it is more dangerous than alcohol.”*^[33]

This fundamental shift in the nation’s attitudes toward legal marijuana – from the President on down – has now reached a tipping point.

As more states move toward legalization, the size of the legal marijuana industry will continue to grow...creating exceptional profit opportunities for those investors who know where to look.

I’ve discovered one company – **Cannabis-Rx, Inc. (OTCBB: CANA)** that could be the next great profit story in the legal marijuana industry. I encourage you to do your own research – immediately – into this company BEFORE the industry sees another huge surge.

How Cannabis-Rx, Inc. (OTCBB: CANA) Stands Poised

to Service the Needs of this Fast-Growing Industry

I've shown you just how fast – and how high – stocks in the legal marijuana industry can soar.

More than fourteen companies have seen rapid explosions in their share price since the beginning of 2014 alone.

But how can you know which legal marijuana companies will prove to be the best investments?

While there are no guarantees when it comes to investing, I like to first look at the industry as a whole...then drill down to find out which companies within the industry have the greatest profit potential.

Obviously we know about the potential for the industry as a whole...

So when it comes to looking for specific legal marijuana stocks, the first item to consider is the company's business model.

Marijuana, as you may know, is remarkably easy to grow.

So a company involved in the business of manufacturing marijuana – for medical or recreational use – may have trouble differentiating itself from competitors and rewarding investors.

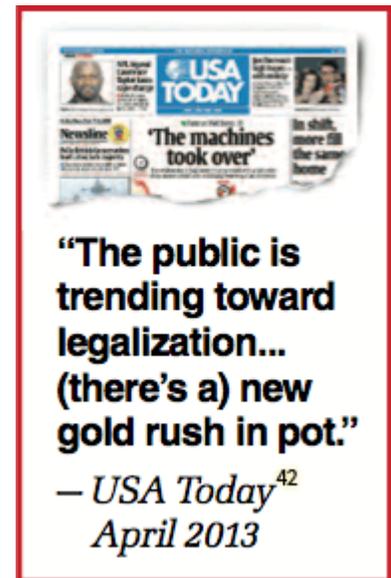

But here's one thing to consider: **In order to grow, manufacture and distribute legal marijuana in the United States you need operating capital...growing space...and commercial equipment.**

And that's where **Cannabis-Rx, Inc. (OTCBB: CANA)** stands poised to deliver real value.

**Begin Your Due Diligence into
Cannabis-Rx, Inc. (OTCBB: CANA) Right Away**

So what part of the legal marijuana industry is **Cannabis-Rx, Inc.** involved in?

The company plans to lease growing space...provide access to commercial real estate and equipment...and provide access to operating capital for licensed marijuana business operators.

Here's the reality: marijuana – even with legalization – still comes with a certain “stigma” attached to it. So licensed business operators can have difficulty finding commercial real estate or getting easy access to bank loans.

Cannabis-Rx, Inc. (OTCBB: CANA) stands poised to help those business operators by providing access to the real estate, capital and equipment needed to participate in the rapid growth of this industry.

The company has already raised \$30 million – and they are looking to invest a large amount of wealth into what has quickly become the fastest-growing industry in North America: legal marijuana.

5 Reasons Why You Should Consider Adding Cannabis-Rx, Inc. (OTCBB: CANA) to Your Portfolio Today

#1 – Fast-Moving Industry – The legal marijuana industry is the fastest-growing industry in North America today. One industry trade journal says ***legal sales of marijuana could potentially quadruple by 2018...that's growth at a faster rate than the heavily-publicized global smartphone market!***

#2 – Explosions in Share Price – Companies in the legal marijuana industry are seeing their share price explode time and time again.

With every new state that legalizes marijuana for medical or recreational use, new opportunities are created in this industry...and **Cannabis-Rx, Inc. (OTCBB: CANA)** stands poised and ready to service the needs of this fast-moving sector.

Remember – no one can say for sure how quickly or how far shares of this company could move.

But what's happening in the legal marijuana industry right now is truly historic. More than a dozen companies have seen an explosion in share price – in a short period of time – in the past few months alone.

Companies in this field have shot up 290%... 342%... 642%... 867%... 1,172%... even as high as 1,400%!

These remarkable surges in share price – all across the industry – are why it's critical that you begin your due diligence into **Cannabis-Rx, Inc. (OTCBB: CANA)** as soon as possible.

By waiting even a few days to investigate means risking missing out on another potential opportunity like those I've shown you in this report from North America's fastest-

More than a dozen companies have already seen **fast-moving, short-term triple-digit gains** in the past few months alone.

#3 – Legalization of Marijuana is at a Tipping Point

– At this moment, 20 states now allow legal medical marijuana...with

recreational cannabis fully legalized in Washington and Colorado. **The tide has turned in regards to marijuana** – with more than 50% of the public now supporting legalization...and even President Obama calling marijuana, “no more dangerous than alcohol.”

#4 – Cannabis-Rx, Inc’s Sound Business Plan

– This is a **forward-thinking company** positioned to help service licensed operators all over the U.S. By providing marijuana business operators with access to capital, real estate and equipment...Cannabis-Rx, Inc. can differentiate itself from other companies in this fast-moving industry.

#5 – You Can’t Afford to Miss Out on this Chance

– Much like the end of prohibition in 1933 launched the enormous, \$180 billion worldwide alcohol market, the legalization of marijuana will create new, explosive profit opportunities on a grand scale. We’ve already seen more than a dozen companies shoot up by 100% or more – in a short period of time. Knowing how quickly this industry can create winners, you can’t afford to wait a single minute and risk missing out on the opportunity that lies ahead for **Cannabis-Rx, Inc. (OTCBB: CANA)**.

Cannabis-Rx, Inc. (OTCBB: CANA) Could Soon Join My Long List of Triple-Digit Winners

My name is Mike Casson...and I have a 35-year history of successful investing.

That fact alone doesn’t mean you should listen to me when I recommend you begin your due diligence immediately into **Cannabis-Rx, Inc. (OTCBB: CANA)**

Instead, I’ll stand on my track record. I don’t say this to brag, but many of my recommendations have produced gains that are off the charts! Here are a few of the winners my research staff and I have passed along to our readers.

- **187% gains on Harbin Electric** – which jumped from \$4.70 to \$8.50 in 66 days, then went to \$13.48 (in the next 4 months).
- **195% gains on COGO**. It went from \$5.51 to \$16.27 in 241 days.
- **400% gains on SilverCrest Mines**, which racked up a 75% gain in one year. However, longer term investors who held another 14 months saw a 400% profit.
- **739% on Fushi Copperweld**. It jumped from \$3.30 to \$10.00 (up 203% in 61 days) – and ultimately hit \$27.69 a share for a whopping gain of 739%.
- **408% gains on TKSZ (now CGLO)** which skyrocketed from \$0.40 to \$2.03 in less than seven weeks.
- **WTR gained 48.2% in 28 days** (the annualized return potential on quick movements like this are off the charts...over 626%).
- **58% gains in five weeks** on American Manganese (AMY.V).
- **39% gains in 36 days** on EnerJex Resources (ENRJ).
- **122% gains in less than 30 days** on Beamz Interactive (BZIC).

That’s a “winner’s list” I’d stack up against anyone else’s in this business.

But I also know that the name of the game is, “What have you done for me lately?”

Though nothing in life is guaranteed, I fully expect – in a very short period of time – to add **Cannabis-Rx, Inc. (OTCBB: CANA)** to that list of winners.

Subscribers to my *MicroCap MarketPlace* advisory service have grown accustomed to cashing in double- and triple-digit winners as I uncover the “best of the best” investment opportunities. And I hope you’ll join them.

Do yourself a favor and sign up – today – by [clicking here](#).

Subscribe today and you’ll continue to receive advance notice of breakthrough profit opportunities like **Cannabis-Rx, Inc. (OTCBB: CANA)** as I uncover them.

Remember...you should always do your own due diligence when following any investment recommendation...

And please be sure to act quickly – and begin your research into Cannabis-Rx, Inc. (OTCBB: CANA) before you miss out on this rare, fast-moving opportunity to cash in on the hottest industry in North America today: the legal marijuana industry!

Good Investing,

Mike Casson

MICROCAP MARKETPLACE (MCMP) SAFE HARBOR STATEMENT: Statements contained in this online report and/or video, including those pertaining to estimates and related plans, potential mergers and acquisitions, estimates, growth, establishing new markets, expansion into new markets and related plans other than statements of historical fact, are forward-looking statements subject to a number of uncertainties that could cause actual results to differ materially from statements made. MCMP provides no assurance as to the subject company's plans or ability to affect any planned and/or proposed actions. MCMP has no first-hand knowledge of management and therefore cannot comment on its capabilities, intent, resources, nor experience and makes no attempt to do so. Statistical information, dollar amounts, and market size data was provided by the subject company or its agent and related sources believed by MCMP to be reliable, but MCMP provides no assurance, and none is given, as to the accuracy and completeness of this information. DISCLAIMER: The information, opinions and analysis contained herein are based on sources believed to be reliable but no representation, expressed or implied, is made as to its accuracy, completeness or correctness. Past performance is no guarantee of future results. MCMP is an independent paid membership website. (www.MicroCapMarketPlace.com). This online report and/or video is a solicitation for membership in MCMP services. MCMP did not receive any direct compensation with respect to the writing of this online report and document. MCMP expects to generate new membership revenue, the amount of which is unknown at this time, to its paid website through the distribution of this online report and/or video. This constitutes a conflict of interest as to MCMP's ability to remain objective in its communication regarding the subject company. Analysts, principals, associates, employees and affiliates of MCMP do not own or trade equities in the subject company. MCMP is not an investment advisor and this report is not investment advice. This information is neither a solicitation to buy nor an offer to sell securities but is a paid advertisement. Information contained herein contains forward-looking statements and is subject to significant risks and uncertainties, which will affect the results. In the interest of full disclosure, Mike Casson, Publisher and Executive Editor of MCMP is also president of Casson Media Group, Inc. and affiliated companies (hereinafter "CMG"). CMG has received a seventy-five hundred dollar cash fee for this and other advertising efforts from a non-related third-party. The opinions contained herein reflect our current judgment and are subject to change without notice. We encourage our readers to invest carefully and read the investor information available at the web sites of the U.S. Securities and Exchange Commission (SEC) at <http://www.sec.gov> and the National Association of Securities Dealers (NASD) at <http://www.nasd.com>. The NASD has published information on how to invest carefully. Readers can review all public filings by companies at the SEC's EDGAR page. Third Party Advertiser/Advertising Agency IMPORTANT NOTICE AND DISCLAIMER: Trend PR Agency has managed up to a \$1,800,000 USD advertising production budget as of March 20, 2014 in an effort to build industry and investor awareness. Any funds leftover after expenses for research, overhead, advertising and public relations related to Cannabis-Rx Inc (CANA) will be considered profit. Entities related to Trend PR Agency hold a large amount of shares in CANA and intend to sell those shares. Their sales of CANA common stock will affect the value of your shares (negatively). This should be considered a direct conflict of interest. Please review all investment decisions with a licensed investment advisor. This report is a commercial advertisement and is for general information purposes only. Trend PR Agency is engaged in the business of marketing and advertising companies for monetary compensation. Never invest in any stock featured on this site or emails unless you can afford to lose your entire investment.
