# “THE OPPORTUNITY TO INVEST IN THE FUTURE IS NOW”

If you had **the chance** to invest in Red Bull BEFORE the industry exploded with the company at the helm, would you? Or What if you had **the foresight** to capitalize the first time you heard about a little thing called streaming video? Well what began as quiet ideas from companies like Red Bull and Netflix bloomed into multi-BILLION Dollar industries and **early investors made out like Bandits!**

**The next opportunity to get a front row seat is RIGHT NOW!** This is the market leader you haven't heard of yet but the company has something SO SIMPLE, you'll wonder why you've never heard of it before!

# Life Clips

Share life as it happens

**WE'RE PLACING AN IMMEDIATE ALERT ON LIFE CLIPS, INC. OTCBB: (LCLP)**

Life Clips has acquired technology that up until this point has only been in the beta stage or not even on the market! **That places early investors at a REAL GROUND FLOOR with a FIRST-TO-MARKET opportunity only a few will see in their lifetime!**

WiFi connectivity

waterproof up to 30M

picture clarity

3840 \* 2160, with 2k, 1080, 720 also available

As we're sure you read in the industry report, the overall 'Portable Battery Pack Market' is expected to reach up to **\$10.94 billion by 2020**, at an estimated **CAGR of 17.53%** through the end of this decade! The fact of the matter remains that most of these options are too bulky to carry or require you to plug into some sort of outlet to get a charge. And **ALL** options not only cost upward of \$100 but they also require you to pre charge the device in order to use it; some taking hours to give a full charge!

# JUST YESTERDAY, THE COMPANY ANNOUNCED A MAJOR MOVE

The company announced a **MAJOR** move to acquire **Mobeego, LLC**. It's not so much **WHO** that company is but **WHAT** asset it gives LCLP.

# THE POTENTIAL FOR AN **ACQUISITION** TARGET FROM THE “BIG FISH” IN THE INDUSTRY COULD BE **HUGE!**

And with emerging markets like India on pace to expand the smartphone market by **more than 20%** through 2018, there's **NO SHORTAGE** of a **REAL NEED** for portable power. Mobeego not only addresses this need but does so at a price that is much **MORE AFFORDABLE** than **ANYTHING THE MARKET OFFERS** and that could mean a **HUGE OPPORTUNITY** for early investors!

 mophie®

**ZAGG**™

The closest thing to a real “mobile solution” actually comes from a private company, **Mophie, Inc.** They are the makers of a phone shell that acts as a battery life extender. The company does a **few hundred million dollars a year** in sales but has a specific market niche when it comes to portable chargers. The company's even attracted the attention of mobile accessories maker, Zagg, Inc. who's **ALREADY ANNOUNCED BUYOUT** plans this year and to the tune of **ONE HUNDRED MILLION DOLLARS!** But to this point, investors would be betting on Zagg's ability to continue Mophie's growth path.

LCLP offers a direct solution, as they will meet this market head on with a **FIRST OF ITS KIND product** at the most competitive price on the market today!

# FOR EARLY INVESTORS BEING FIRST IS ABOUT FINDING OPPORTUNITY BEFORE OTHERS

IT DOESN'T TAKE A ROCKET SCIENTIST TO FIGURE OUT THAT **BIG MONEY** IS GOING INTO THIS MARKETPLACE RIGHT NOW AND THE MARKET IS JUST BEGINNING TO SEE THE FIRST PHASE OF **BIG ACQUISITION** STRATEGY IN REAL TIME.

# INVESTORS ARE READY TO CASH IN ON THE NEXT MUST HAVE TECH GADGET!

Think about it for a minute. In this day and age, few have truly been able to grasp **opportunity in peripherals** simply because many people would rather focus on things like cell phones vs the cell phone case makers or cars instead of the companies making the wheel bearings.

**Panasonic**

**HEWLETT®  
PACKARD**

**SAMSUNG**

The fact is that the old saying holds true to this day, **“In the gold rush it wasn't the miners who profited the most, it was the ones selling them the picks and shovels.”** In the world of computers, companies like HP, Panasonic, and even Samsung score **HUGE windfalls** from capitalizing on the peripherals market. **Investors who acted first were handsomely rewarded with well-earned profits.** And now smartphones and connected devices have carved out a new niche that comes with its own opportunity.

# LIFECLIPS IS FAR FROM JUST A BATTERY COMPANY; NEXT TARGET, GOPRO!

*"The action camera market has undergone a great deal of development over recent months,"*

- Futuresource analyst Arun Gill

Outside of the **untapped market opportunity** for portable charging, LCLP has gone full circle focusing entirely on the mobile lifestyles that today's consumers are living.

Investors are now starting to put their ear to the ground to find the next **paradigm shift** to take advantage of this much **LARGER OPPORTUNITY!**

# COMPANIES IN THE SPACE CONTINUE TO POST **40-50% MARGINS**

## LCLP IS TAKING THIS HEAD ON

The industry as a whole is expected to realize **robust growth through 2019** and most likely beyond. Analysts forecast the Global Action Camera market to grow at a **CAGR of 22.2%**.

LCLP is taking this head on with a product that to this point **makes the popular GoPro product line, pale in comparison!** The LifeClips SOLO 4k camera not only offers **real time streaming ability** via WiFi connectivity but the addition of its **mobile app** allows users complete control even without being near the physical device! It also directly addresses what today's Action Cameras focus on, which include being **waterproof, compact, and high quality** image recording capabilities.

# THINK ABOUT THIS FOR A MINUTE...

GoPro basically created a segment of small, wearable cameras for personal use. **Those early investors who bought GPRO at the time it IPO'd were able to MORE THAN TRIPLE THEIR INVESTMENT** in just a few months! GPRO hit a high of **nearly \$100 per share** and many credit this to the healthy margins that the industry presents. Now there has come a point where consumers and investors are not just looking for the next wearable camera but rather **the evolution of what will come** as the next innovation for the space.

Investors predict expansion for the action camera market over the next four to five years. This growth is expected to come from growing consumer interest in the cameras, a new market for law enforcement and other security professionals, and overseas markets where action cameras are becoming popular.

***LCLP offers a more versatile product and at a far more affordable price to address the growth that this industry presents to the general public in the coming years!***

# NOW IS THE TIME TO CONSIDER THE NEXT WAVE OF EARLY INVESTMENT!

If you missed your shot at profiting from the early boom in action cameras, the next phase of evolution could offer **uncapped potential** as the market is expected to realize some of its **largest growth during the next 5 years!**

LCLP has targeted the mobile lifestyles of today's consumer and has two products that **NO ONE HAS SEEN** to this point and let alone has given an opportunity in the public markets for **EARLY INVESTMENT.**
