This Hidden Industry Pushed XRAY Up 3,116% - Launching Shares From \$1.33 To \$42.78 - And Now WSML Is About To Make That Look Like Peanuts!

3,116% profits could be just a drop a bucket as some of Hollywood's hottest stars are already using WSML's breakthrough product! And just like my previous picks HHWW, ALZM, and KNKT before them, WSML's giving you the chance to cash out literally wealthy!

Hello, Friend...

You heard that right...

WSML is giving you the chance at 3,116% returns, instantly putting you among the investing elite.

A bold statement for sure, but boldness breeds success.

Success can be measured by what you know, and today, I'd like to let you in on a little known secret...

Or what I like to call Country Club Classified.

Look Who's Using World White

Hi, I'm Eric Dickson, editor of *Breakaway Stocks*, and I'm going to give you all the details on this hidden stock that are normally kept hidden from people like us.

You see, right now, investors in the know about this secret are getting rich. We're not talking Wall Street tycoons here...

We're talking the doctors, lawyers, dentists and trust fund babies who sit in the lounge at their posh and exclusive country clubs, whispering to each other, telling each other the secrets that only the privileged tell the rich...

And one of their closest guarded secrets is about to make **US** rich!

You see, while the rest of the world has been buying up Chinese stocks like mad, grabbing gold and silver companies up like crazy or betting on the newest biotech stock...

These Country Club Cowboys have secretly been padding their pockets with the huge profits they've been making off investments in the \$100 Billion dental industry.

Your Key To Unlocking 3,116% Profits

This Dental Industry? Yes, the market for all things dental health related has somehow become the quietest \$100 Billion industry, as not many people know how lucrative it is.

I mean, take a look at just a handful of winners...

 SIRO - Sirona Dental Systems, which develops, manufactures, and markets dental equipment for dentists all over the world jumped from \$10.03 to \$55.39, returning shareholders 452% gains!

- HSIC Henry Schein, distributor of office-based healthcare products and services, bounced from \$6.40 to \$61.40 for a hefty 859% gain!
- ALGN Align Technology, which designs, manufactures, and markets the practically invisible brace system called Invisalign leaped from \$1.82 to \$22.06 for an astounding 1,112% return!
- PDCO Patterson Companies, a distributor of serving the dental supplies bounded from \$1.94 to \$50.55 for an incredible 2,505% gain!
- XRAY DENTSPLY International, which designs.

9/26/12 WSN

develops, manufactures, and markets dental consumable products, dental laboratory products, and dental specialty products worldwide soared from \$1.33 to \$42.78 for a knee-wobbling 3,116% return for shareholders!!

And it's the success of the companies in this industry that's proving White Smile Global (WSML) could very well be on its way to stock superstardom.

It's the performance of these companies that has investors chomping at the bit as WSML's making it's run to top...

But what really has me excited, can be summed up in one word:

Stability.

You see, what really opened my eyes to this industry is the fact that these five performer's share prices are at or very near their pre-2008 slide, something many other industries can't claim.

Making the Dental Health industry one of the most profitable place an investor can grow his money!

So, when my expert sources tell me that WSML is offering us a very good chance to make 3,116% gains, I needed to see the research for myself...

And when it comes to WSML, I believe I've found a one-in-a-million stock that cannot only make it the most profitable stock of 2011...

But could make you richer than you ever imagined!

But before we get into how WSML can make you rich, let me tell you exactly how they're going to do it.

WSML – Brighter Smiles & Bigger Profits

Since the invention of the first toothbrush, people have been trying to unlock the secret to a bright, white smile, trying all kinds of gimmicks along the way...

Sand, wine, and even urine were used in some ancient formulas as whitening agents, but thankfully, only sand (silica) stood the test of time.

For most of the 20th century, silica based toothpaste, which literally scrapes and scratches our teeth clean, was our only weapon against stained and dingy smile...

Rut in the last quarter of the century same amazing

WSML

advances broke us out of the Stone Age, giving us the means to brighten smiles like never before.

However, with the increased risk of chemical burns from gel bleaching, pain to those with "sensitive teeth" and tongue cancer as prominent side effects, there were many that would

shy away from these procedures.

That is, until WSML perfected an *all-natural* teeth whitening solution that, according to an independent study, can brighten your smile by almost 800%!

An affordable and safe way to brighten teeth is a sure money maker...

I mean, customers get all of the benefits with none of the risks...

This is what makes WSML truly amazing.

And being the only all-natural teeth whitening company in a \$100 Billion industry has investors the world over excited about the unique profit opportunity that WSML offers ...

Because just like SIRO, HSIC and ALGN before it, WSML is setting up the pieces to run the table, giving us the very real chance at 3,116% gains.

For you and me, that means a modest \$5,000 investment could blossom to \$155,800 - \$10,000 explodes to \$311,600 - as this company climbs the ladder on its way to becoming the world's chosen brand for whiter teeth.

3,116% Gains: Why Dental Health Is So Lucrative For Investors

Have you ever heard the expression, "the proof is in the pudding"?

The average patient spent \$5,640 (on teeth whitening) in 2006, but 3% of practices reported an average amount spent per patient

Well, if there is one thing the dental health industry has, is proof of financial success...

The fact that many of the companies in the \$100 Billion dental health industry are not only extremely profitable, but have recovered from the market crash of 2008 is truly remarkable.

Three of the top earners, ALGN, PDCO and XRAY gave early investors the chance at over 1,000%, 2,000% and 3,000% respectively...

Even dental equipment manufacturer SIRO gave early investors the chance at 452% gains...

And it's the amazing track records of WSML's predecessors that's giving them the chance to offer us those 3,116% gains.

Why?

Well, by being the only company to offer an all-natural solution for whiter teeth, WSML is positioning themselves to take the top of a very big hill...

This is why I believe that 3,116% gains are not only probable, but could be just the beginning for shareholders in WSML.

Riding The Never Ending Profit Train of Perpetual Profits

Perpetual profits...

Ask anybody, and they'll tell you, that nothing boosts gains like return customers, it's a model of success used the world over, and it's just one more reason why WSML could have us profiting huge.

To see this business plan working to its highest potential, look no further than skin cleansing company Proactiv.

By now, most of us have seen the infomercials showing individuals with blemished skin becoming fresh faced and acne free, all thanks to Proactiv's line of cleansers and creams.

The commercials themselves are brilliant...

But it's how Proactiv keeps this customers coming back for more, that's pure genius, because when new customers order the product, they also enroll to get the product shipped to them

– Seeking Alpha

And let me tell you, at \$19.95 a pop, plus shipping and handling... That's a lot of cheddar. It's the same kind of cheddar that early investors in WSML could see as the shares they buy today for pennies on the dollar, explode 3,116%!

Especially as constant revenue streams, like the one I just mentioned, keeps filling up WSML's coffers!

But there's a lot more to this story than meets the eye, because there's something else in the pipeline that could very well turn WSML into a household name!

Walgreens, CVS and QVC – Making Connections That Count

I don't need to tell you how big drug store kingpin Walgreens is...

Found on almost every street corner in America, this prototype of the modern day apothecary is one of the true giants of the prescription and over-the-counter drug and health suppliers.

Getting your product sold by one of the world's biggest drugstore retailers is a dream scenario for almost any company...

And White Smile Global's advanced teeth whitening systems could very well be the next product Walgreens starts stacking on their shelves, as management has been in constant contact with the Illinois based retail giant.

Not to mention that they're also in talks with one of Walgreens biggest competitors, CVS...

Which could very well lead to a high-priced bidding war on just who gets exclusive rights to the White Smile Global product.

Most companies would be happy being "in" with two huge proven money-makers like Walgreens and CVS...

But WSML is taking it a step further to pad their (and our) profits.

QVC, the titan of home shopping networks may be really close to devoting a good chunk of their valuable television time to White Smile Global...

This is huge.

WSML's Hollywood Connection

If there's one "secret" ingredient to a successful product launch, celebrity endorsements would be one of the most important things a business can do to ensure that success.

Proactiv, the skin care giant realized this fact, and let celebrities build them up into the multi-Million dollar empire it is today.

If you really want to make it in the highly competitive world of health & beauty, securing a high profile celebrity to endorse your product should be one of your top priorities...

And if there's one thing WSML has in spades, it's celebrities.

Recently, stars from movies, television and music were all seen with WSML's premier product, World White Smile... and to say the feedback has been nothing but tremendous would be an understatement.

Which stars are we talking about?

Only those from some of the hottest shows and biggest movies on the planet! Stars from such hits

Especially seeing as many companies like Proactiv and pre-packaged food system, Nutrisystem, gained their fame on OVC...

Just think what a strategic partnership between the home shopping giant and White Smile Global could mean!

It's not hard to see how an agreement between these two companies could put a lot of money in everybody's pockets:

QVC's, WSML's and more importantly...

Ours!

as:

- Glee
- Jersey Shore
- Dancing With The Stars
- Seinfeld
- True Blood
- And the list goes on and on!!

Proactiv rode celebrities all the way to the bank... And now, investors in WSML have the chance to do the same! Don't let this opportunity pass you by... WSML could be the best trade you make all year!

It's exciting to think about the possibilities any combination of, or all *three* of these deals could give us as shareholders in WSML.

I don't own a crystal ball, but I can see this leading to huge profits as White Smile Global grows into a household name...

Buyout! Blowing 3,116% Gains Out Of The Water

Even if you've just been investing for short time, it's no secret that shareholders stand to make a lot of money when their company reaches a buyout deal and is sold to the highest bidder...

But what you may not know is that buyouts happen in the dental health industry all the time.

Recently, world conglomerate Clorox paid big money to secure natural personal care innovator, Burt's Bees, adding it to their extremely lucrative product line, bolstering it's already Billion dollar market share.

How much did they pay?

Clorox shelled out \$925 Million...

Now, keep in mind that WSML's teeth whitening system is an all-natural solution (just like Burt's Bees) that's proven to whiten teeth 8 times as much as their competitors.

How much do you think Clorox would be willing to shell out for, like I said, a proven winner?

3,116% could just be a drop in the bucket if this happens... And could be even bigger if any other companies jump on and put an offer in. As shareholders, that puts us first in line to profit when this happens! The only real question you need to ask yourself is... Will

People spend time and money going to the gym, hair salons, makeup counters and dermatologist's office and having plastic surgery. It's just a natural progression to have people be more interested in having a healthy smile."

 Laura Kelly, president of the American Academy of Cosmetic Dentistry.
 Forbes you be there to collect when it does?

WSML Destined to Create Millionaires... Are You Going To Be One Of Them?

By soaring 3,116%, WSML could not only be one of the most lucrative stocks of 2011...

But could literally transform you into a Millionaire – practically overnight.

Do you realize how much money we stand to make from a 3,116% price spike from WSML?

Now, at a price jump like this, a meager \$5,000 investment would explode \$155,800...

Double that investment and you're looking at a windfall of \$311,600!

Just doing the math here...

To become a Millionaire from a 3,116% jump on WSML - all you would need to swing would be \$35,000 – which is *miniscule* – compared to **the \$1,090,600 that amount could return you!!**

So I guess the real question is...

How much is it worth for you to become a Millionaire?

The Real Secret To WSML's Success: Introducing Their \$10 Billion Man, Dr. Martin Giniger

It wouldn't surprise me in the least if you've never heard of Dr. Giniger or one of his many accomplishments in the dental health world, as most haven't.

But to those in the industry, this man would be considered liquid gold.

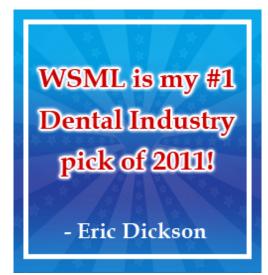

Not only has Dr. Giniger amassed \$10 Billion in aggregate sales for his previous companies...

He's the man behind one of Proctor & Gamble's flagship products and one of the world's top selling toothpastes – *Colgate Total*.

And that's just the beginning of his incredible resume...

Dr. Giniger is also the mind behind the extremely successful Zoom II line of teeth whitening systems, which you may have seen or even tried at one of their many locations found throughout shopping malls across the nation.

But you rarely read or hear about the men and women who create some of the world's most successful and most used products, which is why the name Dr. Martin Giniger may not ring a bell...

However, if his name does seem somewhat familiar to you, it's because you may have heard it mentioned on C-Span or while reading your newspaper.

Understand this, with over 25 years experience, Dr. Giniger is one of the foremost experts in dentistry, so skilled and knowledgeable is he, that he's often been called upon by the U.S. Government as an expert witness in any case pertaining to the dental world...

And WSML has him!!

This is huge.

Dr. Giniger has all the right connections and influence throughout the dental industry, making WSML's success a virtual lock! To put it into perspective...

It's like Bill Gates selling all his interests in Microsoft and starting a new software company from the ground up.

And that's exactly what WSML has in Dr. Giniger... And with him on board, WSML has secured your chance at 3,116% profits.

Secure Your Chance At 30x Your Money Back!
