OTC Symbol: **WMGR**

My true opinion, I think **WMGR** could reach brand NEW HIGHS within the next couple weeks.

WMGR is gaining massive attention. I've been saying the last 13 days you **MUST put WMGR in your portfolio.**

Extremely low & cheap price \$0.14 - Hear me out.

Wellness Matrix Group Inc. (**WMGR**) is a company that's planning to use Virtual Reality (VR) & Artificial Intelligence (AI) to **predict health concerns many years in advance.**

View WMGR's website here <http://wellnessmatrixgroup.com>

I've done my research, the health technology industry is **MASSIVE!!** \$280 billion by 2022 to be exact.

Yes, \$280 **BILLION** by 2022!

Here are 3 reasons I believe WMGR could potentially reach \$1.15 per share by early 2020.

1. (**WMGR**) is in a \$200 Billion dollar market (Health Technology).

WMGR is planning to use virtual reality & artificial intelligence to predict health concerns many years in advance.

This will be the **future of healthcare.**

Imagine being able to determine future health problems and treat them "Before they happen".

100 global institutional investors plan to increase their investment in healthcare by \$200 billion over the next five years.

That's **HUGE...**

2. **Extremely low float.**

What does a low float mean? Well, it means the **stock could jump quickly** with any type of investment.

3. Health Care Spending is On The RISE!

According to Deloitte inc. Global health care spending is on the rise and is **projected to reach \$10.059 trillion by 2022.**

Most of you guys know [healthcare tech](#) is a very attractive industry for major stock investors. [This is why I believe WMGR is an immediate buying opportunity for investors.](#)

Here's my track record:

GSIT I alerted on 01/02/19 when it was at \$5.19, two months later it hit \$9.01!

MCHX I alerted on 01/04/19 when it was at \$2.93, twenty days later it reached \$3.88!

TURV I alerted on 02/22/19 when it was at \$0.14, two months later it reached \$0.65!

WMGR may have similar results.

I've been a trader for 18 years and **believe me** when I say **WMGR** is a stock you'll want to watch closely over the next 30 days. With such a low float I think it'll reach \$1.15 in a few weeks.

WMGR is a stock you **DO NOT** want to miss out on. **Mark my words...**
